SAFETY DATA SHEET
CONFORMS TO OSHA HAZARD COMMUNICATION STANDARD
(HCS) 29 CFR 1910.1200

SECTION 1. IDENTIFICATION

Product identifier: JAX Silicone Fluid 350
Part number: 73350
Identified uses: Direct food-contact lubricant; release agent
Uses advised against: As a direct food-contact lubricant, there are no specific uses advised against. Potential uses advised against may be specified elsewhere in this SDS.
Supplier: JAX INC.
W134 N5373 Campbell Drive
Menomonee Falls, WI 53051 USA
Email contact: info@jax.com
Non-emergency contact: Phone: 262-781-8850   Fax: 262-781-3906
Emergency telephone: INFOTRAC:
North America 1-800-535-5053   Australia 1-300-366-961   Germany 0800-181-2926
International 011-1-352-323-3500 (collect)   China 400-120-0761

SECTION 2. HAZARD(S) IDENTIFICATION

Classification: This product is not classified as hazardous according to OSHA Hazard Communication Standard (HCS) 29 CFR 1910.1200.
Label elements
Pictograms: Not applicable
Signal word: Not applicable
Hazard statements: Not applicable
Precautionary statements: Not applicable
Hazards not otherwise classified: Not determined
Additional information: Not applicable

SECTION 3. COMPOSITION / INFORMATION ON INGREDIENTS

Composition: Chemical name % CAS # Impurities
Polydimethylsiloxane 100 63148-62-9 None

SECTION 4. FIRST-AID MEASURES

First aid measures
Eye contact: Remove contact lenses, if wearing, and flush eyes with water for at least 15 minutes or until irritation subsides. If irritation persists, consult a physician.
Skin contact: Remove clothing and shoes, if contaminated. Wash skin with soap and water. Wash or clean contaminated clothing before reuse and discard oil-soaked shoes. If irritation persists, consult a physician.
Ingestion: If swallowed, DO NOT induce vomiting. As a precaution, give the person a glass of water to drink and seek medical attention. Never give anything by mouth to an unconscious person. Consult a physician.
Inhalation: Remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention immediately.

Most important symptoms and effects, both acute and delayed:

Indication of any immediate medical attention and special treatment available:

General information: No further relevant information available.

SECTION 5. FIRE-FIGHTING MEASURES
Suitable extinguishing media: Extinguishing media include dry chemical, alcohol foam, and carbon dioxide. Do not use direct stream of water. Water may be used to keep fire-exposed containers cool.

Unsuitable extinguishing media: Do not use direct stream of water.

Specific hazards: Pressure build-up due to heat exposure may cause containers to rupture. Use water spray to keep containers cool.

Advice for firefighters: Firefighters should wear full protective gear, including helmet. Use supplied-air breathing equipment for enclosed or confined space or as otherwise needed.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations. Keep away from ignition sources. Wear protective equipment. Keep unprotected persons away.

Prevent entry into sewers, waterways or confined areas by diking or impounding. Dike far ahead of spill for later recovery and disposal. Advise authorities if the product has entered or may enter sewers, watercourses, or extensive land areas.

Methods for containment and cleaning up:
- Land spill: Stop leak if you can do so without risk. Recover free product using non-sparking tools. Add sand, earth, or other suitable absorbent material to the spill area. Recover by pumping or with suitable absorbents. Dispose of in accordance with national and/or local regulations relating to waste disposal.
- Water spill: Stop leak if you can do so without risk. Confine the spill immediately with booms. Remove from the surface by skimming or with suitable absorbents. Seek the advice of a specialist before using dispersants.

SECTION 7. HANDLING AND STORAGE

Precautions for safe handling: Keep away from heat and direct sunlight. Ensure good ventilation/exhaustion at the workplace.

Conditions for safe storage, including any incompatibilities: Store in a cool, dry place in tightly sealed containers. Store out of direct sunlight. Do not store near heat, sparks, open flame, pilot lights, static electricity, or other sources of ignition. Do not store where temperature may exceed 49°C (120°F). Store away from oxidizing agents. Rotate stock.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Workplace exposure limits:
- Chemical name: Polydimethylsiloxane
- Exposure limit and source: Not available

Exposure controls:
- Engineering controls: Provide exhaust ventilation or other engineering controls to keep the airborne concentration of vapors below their respective occupational exposure limits.
- Ventilation: Use in a well-ventilated area. See Engineering Controls.
- Personal hygiene: Wash skin thoroughly after contact, before breaks and meals and at the end of the work period. Product is readily removed from skin by waterless hand cleaners followed by washing thoroughly with soap and water.
- Eye protection: Chemical splash goggles or face shield in compliance with OSHA regulations are advised when eye contact may occur.
- Hand protection: Any lined non-permeable rubber gloves.
- Respiratory protection: Use with adequate ventilation. Respiratory protective equipment is not normally required where there is adequate natural or local exhaust ventilation to control exposure. In case of insufficient ventilation, wear suitable respiratory equipment. A NIOSH/MSHA-approved air-supplied respirator is advised in absence of proper environmental control.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance / odor: Clear and colorless liquid
- Upper flammability limit: Not available
- Lower flammability limit: Not available
- Vapor pressure: <5.0 mm Hg @ 68°F
- Vapor density: Not available
- Relative density: 0.97 (typical)
- Solubility in water: Negligible
- Partition coefficient: Not available

Physical state: Liquid

Odor threshold: Not available

pH: Not available

Melting / freezing point: Not available

Initial boiling point and boiling range: Not available

Flash point: 600°F (315°C), Pensky-Martens Closed Cup
Evaporation rate: Not available
Autoignition temperature: Not available
Flammability (solid, gas): Not applicable
Decomposition temperature: Not available
Viscosity: Not available

SECTION 10. STABILITY AND REACTIVITY
Reactivity: Not reactive under normal conditions.
Chemical stability: Stable under recommended conditions.
Possibility of hazardous reactions: Hazardous reactions are not expected to occur.
Conditions and materials to avoid: Avoid strong oxidizing agents.
Hazardous decomposition products: Carbon dioxide, carbon monoxide, silicon dioxide, and trace amounts of incompletely burned carbon products.

SECTION 11. TOXICOLOGICAL INFORMATION
Information on likely routes of exposure
Eye contact: No known significant effects or critical hazards.
Skin contact: No known significant effects or critical hazards.
Inhalation: No known significant effects or critical hazards.
Ingestion: No known significant effects or critical hazards.

Information on physical, chemical and toxicological effects
Symptoms: Please see Section 4 of this SDS for symptoms.

Delayed and immediate effects, and chronic effects, from short and long-terms exposure
Effects: No further relevant information available.
Carcinogenicity: This product does not contain a carcinogen or potential carcinogen as listed by NTP or IARC.
Numerical measures of toxicity: Not determined

SECTION 12. ECOLOGICAL INFORMATION
Ecotoxicity: Not available

Persistence and degradability: Not determined
Bioaccumulative potential: Not determined
Mobility in soil: Not available
Other adverse effects: Not determined

SECTION 13. DISPOSAL CONSIDERATIONS
Waste treatment methods: Disposal must be in accordance with current applicable laws and regulations, and material characteristics at time of disposal. Consult national or regional authorities for proper disposal and reporting procedures.

SECTION 14. TRANSPORTATION INFORMATION
Dangerous goods descriptions may not reflect package size, quantity, end-use or region-specific exceptions that can be applied to shipments. Consult shipping documents for material-specific descriptions.

### SECTION 15. REGULATORY INFORMATION

#### U.S. Federal Regulations

**SARA Section 302 Extremely Hazardous Substances:**
This product contains greater than 1.0% of the following chemical(s) on the SARA Extremely Hazardous Substances List: None

**SARA Section 304 CERCLA Hazardous Substances:**
Release of the following chemical(s) at quantities equal to or greater than the reportable quantities (RQ), is subject to reporting to the National Response Center under CERCLA: None

**SARA Section 313 Toxic Chemicals:**
This product contains the following chemical(s) listed in Section 313 at or above the de minimis concentrations: None

**TSCA Inventory:**
All components of this material are on the U.S. TSCA Inventory.

#### U.S. State Regulations

**California Proposition 65 Status:**
This product does not contain chemical(s) known to the State of California to cause birth defects or other reproductive harm.

**California Proposition 65 Listed Components**
None

#### International Regulations

**Canada:**
All components are in compliance with the Canadian Environmental Protection Act. This product has been classified in accordance with the hazard criteria of the CPR and this SDS contains all the information required by CPR.

**Japan MITI:**
Not available

**Australia:**
Not available

**Switzerland:**
Not available

### SECTION 16. OTHER INFORMATION

**Sections Revised:**
New SDS format

**Revision Date:**
7/30/2015

The information and recommendations contained herein are, to the best of JAX INC.’s knowledge and belief, accurate and reliable as of the date issued. JAX INC. makes no warranty or guarantee, expressed or implied, of their accuracy or reliability, and JAX INC. shall not be liable for any loss or damage based upon the criteria supplied by the developers of these rating systems, together with JAX INC.’s interpretation of the available data.
